TESTIMONIALS

EDE Congress 2020

I would thoroughly recommend this event, as using online platform enables speakers from all over the world to participate without the time consuming travel. It has sense of participation, I really enjoyed being a speaker

Dr. Peter Tunbridge

I thank the organizing committee for inviting me to be speaker in this prestigious conference and have the opportunity to share my clinical experiences regarding the treatment of diabetes patients and its complications and to hear the experiences of many professionals from all over the world. The conference was amazing, the organization was excellent

Dr. Huang Wei Ling

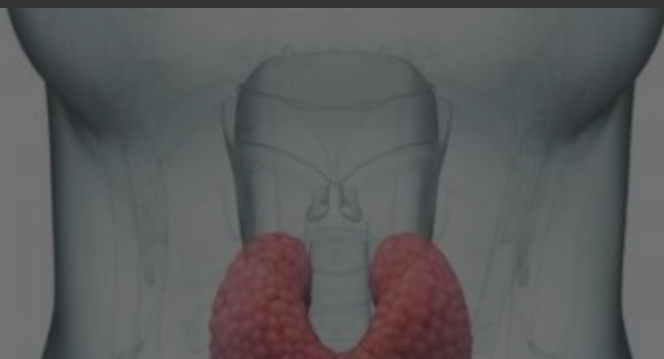

Being part of your congress was very enriching. I had the chance to interact with some eminences of the field and collect some new ideas for future research propositions. Even if we cannot meet in person these days for "physical" conferences, I find virtual events like this to be extremely important for the community to keep growing and exchanging some ideas.

Dr. Raffaele Pilla

It was great opportunity to share in this great congress and interact with great speakers in this grand event hoping all success in the future for organizers of this great conference

Prof. Dr. Ibrahim El Bayoumy
