# About City

Dubai rose as a global city and business centre of the Middle East. It has as of late pulled in world attention through many innovative large construction projects and sports events. The city has turned out to be notable for its high rises and elevated structures, specifically the world's tallest building, the Burj Khalifa. As in 2012, Dubai was the 22nd most costly city on the planet and the most costly city in the Middle East. In 2013, U.S. global consulting firm Mercer evaluated Dubai the best place to live in the Middle East. Dubai is also a city and emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture and a lively nightlife scene. Burj Khalifa, an 830m-tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks.
