

## International Conference on Dementia and Alzheimer Rehabilitation

June 22-23, 2020 London, UK

# Invitation

Dear Colleagues,

Conference on Dementia and Alzheimer Rehabilitation. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Dementia and Alzheimer Rehabilitation & Neurology Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

Sincerely,  
Organizing Committee

The conference will focus on “Exploring the Challenges Concerning Excellence in Dementia Research and Care”. We are confident that you will enjoy the scientific program of this upcoming conference. Dementia and Alzheimer Rehabilitation Conference.

# About us

Scientific Meditech is associated with vitalizing and refining the information about Science, Engineering, and Technology to break down the past, research display and plan another type of connected science in future. We give the best substance, an astounding representative affair, extraordinary systems administration openings with similarly energetic experts, and an incredible relationship to be in contact with eminent and new researchers and innovation to embrace trading of the thoughts and learning which encourage the coordinated effort between the researchers, academicians, and specialists of same field or interdisciplinary research. Scientific Meditech is capable in sorting out gatherings, classes, and workshops with the astute and flawless speakers all through the world furnishing you and your association with an expansive scope of systems administration chances to globalize your examination and make your own particular personality. Our gathering and workshops can be all around titled as 'sea of learning' where you can cruise your watercraft and pick the pearls, driving the route for imaginative research and systems enabling the quality by overpowering the intricacies related inside the particular fields.

"Meet Inspiring Speakers and Experts at our Scientific Meditech Conferences with Unique Opportunity in Science, Medical and Technology field, which gives the online visibility to the Speakers, Experts and young researchers,"

We welcome all the interested members to participate in our conferences as Keynote Speakers, Plenary Speakers, Poster Presentations, Delegates and Sponsors & Exhibitors.

## **Unique features of Scientific Meditech Conferences**

Focused networking: Provides a free and open atmosphere where attendees talk and engage in creative ways. Unmatched wisdom: Engage with the community, share insights, and learn about whats coming next. Devoted researcher: Join some of the best minds as they speak about their research and share their experiences. Exceptional opportunities: Showcase your achievements and exceptions to a truly global audience. Inspirational learning: Bringing together a community of researchers from many fields to collaborate together to create lasting change. Global audience: Attendees from more than 55 countries. Unique and expert speakers: Our speakers represent the cream of research and development practitioners worldwide. Brilliant ideas: Our speakers represents the innovative ideas for research and development practitioners worldwide.

# Conference Highlights

## Dementia

Vascular Dementia

Dementia and Aging

Lewy body Dementia

Alzheimer's Disease

Geriatrics Dementia

Cognitive Disorders

Neurodegenerative Diseases

Brain disorders

Dementia Nursing

Treating Dementia

Dementia Care Management

Neuropharmacology

Dementia Rehabilitation and Therapy

Novel Therapeutics

Case Reports

# How our Conferences differs from others ?

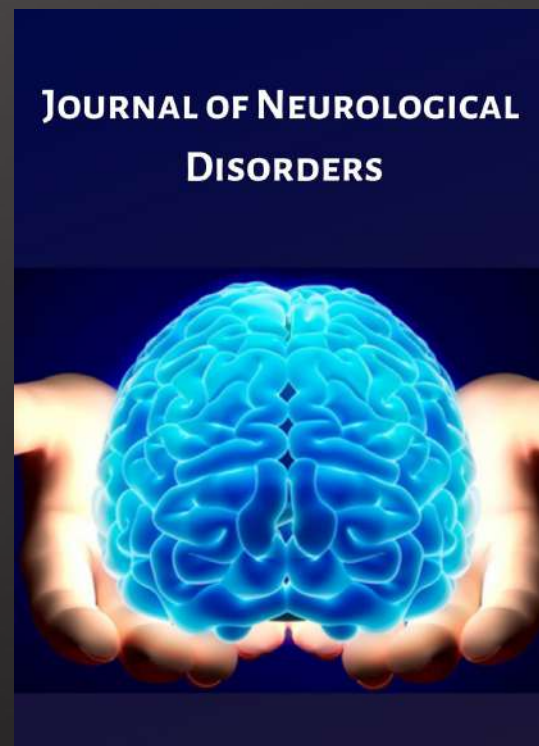

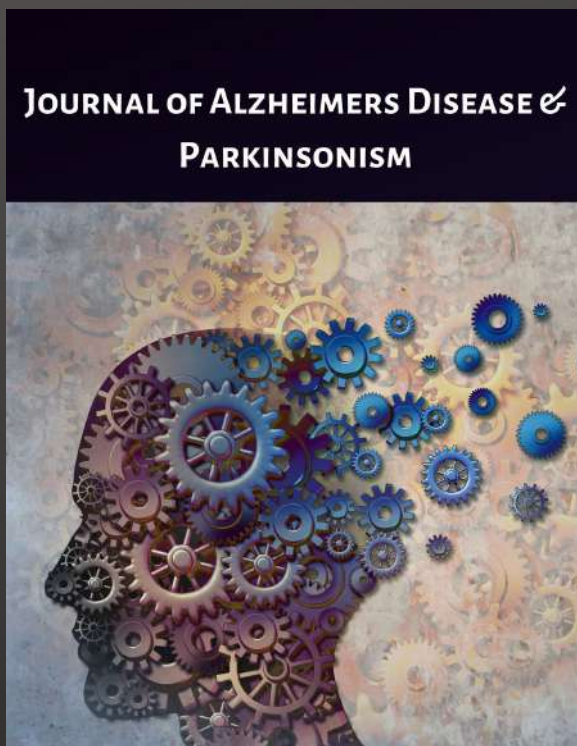

Accelerate the development and application of new technologies to produce dynamic pictures of the brain that show how individual brain cells and complex neural circuits interact at the speed of thought. Promoting technologies will open new doors to explore how the brain encodes, stores, and retrieves vast quantities of information, and shed light on the complex links between brain function and behavior. Emerging insights about the human brain have implications for all aspects of human endeavor. This subject matter can capture the imagination of academic thinkers and the general public as well. Conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neurolog and Neurophysiology that is present abundantly and to scrutinize its incredible findings from all over the world.

## Who should attend ?

Neurologists, Neurosurgeons, Neurophysiologists, Psychiatrists, Pharmacists, Research Scientists, Neurology Organizations & societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students.

# Supporting Journals

Journal of Alzheimers Disease & Parkinsonism  
Journal of Neurological Disorders  
Brain Disorders & Therapy

# Registrations

## Academic

Only Registration: \$499

Package A (Registration + 2 nights' Accommodation): \$699

Package B (Registration + 3 nights' Accommodation): \$799

## Business

Only Registration: \$599

Package A (Registration + 2 nights' Accommodation): \$799

Package B (Registration + 3 nights' Accommodation): \$899

## Student

Only Registration: \$399

Package A (Registration + 2 nights' Accommodation): \$599

Package B (Registration + 3 nights' Accommodation): \$699

## Important Dates

Abstract submission opens: September 25, 2019

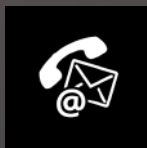

Registration opens: September 25, 2019

On spot registration: June 22, 2020
